

Wind Erosion System

- Erosion control with easy installation
- No sharp stakes or membrane penetrations
- Mat will naturally biodegrade in 1-2 years allowing roots to establish in growing media
- Anchors are spaced 3' OC in field and 2' OC at edges and corners
- Anchors also available in biodegradable materials

TECHNICAL CHARACTERISTICS

	MATERIAL	THICKNESS	LENGTH	WIDTH
EROSION BLANKET	Coconut Coir	10"/ roll	120'/ roll	6'/ roll
DISK	Steel	30 mil	5"	5"
ANCHOR				
BASE	Recycled Polyethylene	¼"	5"	5"
SHAFT	Recycled Polyethylene	⅜" Dia.	12"	-
BIOANCHOR				
BASE	Biodegradable Corn Starch	¼"	5"	5"
SHAFT	Biodegradable Corn Starch	⅜" Dia.	12"	-
