<6 lbs/sq ft

Size:
24" x 24" x 1-3/8"

Install with
fastening pins for
rooftop applications

Made in USA

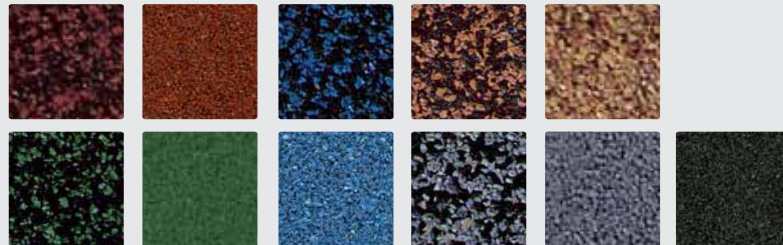

Roof Top Deck Tile

These 100% recycled rubber deck tiles are quickly and easily installed, lightweight, and designed to allow water to flow through and beneath them.

- Modular, molded tiles are designed to allow for robust drainage with lateral flow beneath the tiles
- Easily cut to accomodate corners and obstacles
- Made from 100% post-consumer recycled waste tires
- Low maintenance; easily kept clean with a broom and hose
