Available in:
Clear or Amber

1 gallon, 5 gallon, and
50 gallon options

18-20 oz. of
Gravel-Lok liquid :
1 five gallon bucket
of stones

Made in USA

Aggredrain

- Organic drainage layer made of rotary expanded clay and/or shale
- Closely emulates pH and drainage qualities of natural soils
- Complies with ASTM D-0330 and FLL standards
- Should be distributed at minimum 1" depth over a protection fabric (MRM14 or MRM30) and covered by a separation fabric (FF35)

Uniformity of Grading (percent passage)

Sieve Size	Average
1/2"	92%
3/8"	60%
#4	14%
#8	4%

Properties

Aggredrain

Specific Gravity (SSD)	1.35
Dry Unit Weight	35-38 pcf
Saturated Surface Dry Weight	46-48 pcf
Absorption	25-30%
