702 sq ft

100% biodegradable:  
top: natural jute  
matrix: coconut fiber  
bottom: natural jute

Made in USA

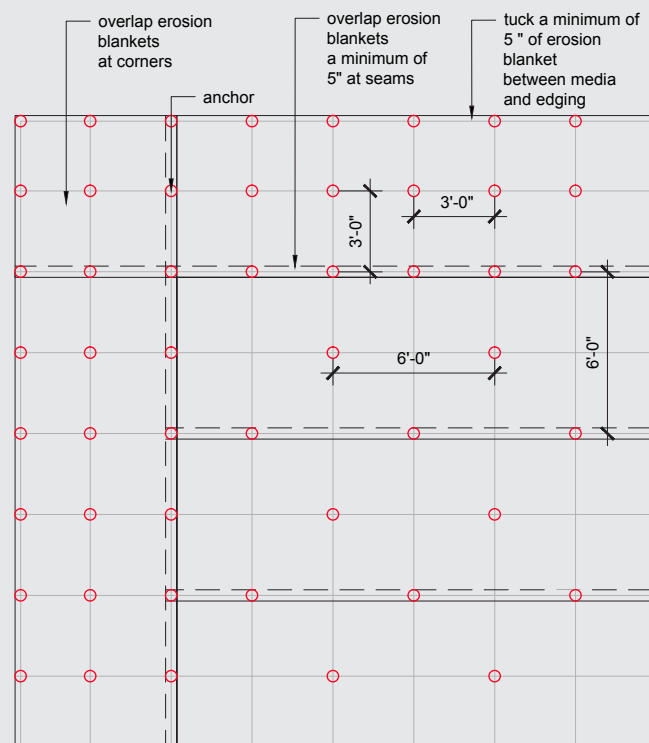

# Fine Wind Erosion Blanket

Green Roof Solutions' Fine Wind Erosion Blanket is made of woven jute top and bottom netting with a 100% coconut fiber matrix stitched between. These combined create a durable and effective protection against wind scour while still being 100% biodegradable.

-Especially useful for establishing plug plants on a green roof

-Use with Green Roof Solutions Wind Erosion Anchors
