

Product Data

Made of 100% recycled
polypropylene

Each panel:
1.64' x 1.64'
(2.68 sq ft)

Height:
2.36 in

Weight:
0.82 lbs/sq ft

Made in USA

Geodrein Drainage Panel

Designed as a water retention and drainage component for intensive and extensive green roof systems

Allows water to flow through entire panel by reservoir cups and channels to assure uniform distribution

Great for building hardscape elements such as walls and patios

Units snap together for easy installation
