

Product Data

Roll Size:
3.25' x 61.5' (199.8 sq ft)

Thickness:
Retenduct: 0.6 in
Retenduct 2: 0.61 in

Weight (lbs/sq ft)
Retenduct: 0.21
Retenduct 2: 0.24

Flow Rate (gal/min/sq ft):
Retenduct: 23
Retenduct 2: 23

Made in USA

Retenduct

- Drainage core with integral moisture retention fleece on one side
- Available with or without an additional protection fabric on one side (Retenduct 2)
- Excellent durability
- Conforms to irregular surfaces and corners
- Waffle design creates open flow path - even during backfill
- Continuous flow even under high loads
- Long rolls reduce installation costs by reducing butt seams and eliminating interlocking
- Recycled content polymer contributes towards LEED points
- 3" fabric overlap flap
